President  
**Javier Sollozo**

**CERTIFICATE VALID FROM:**

**Aug 30, 2021 To Aug 29, 2022**

**AUDIT TYPE:**

Announced Audit

**AUDIT EXECUTIVE SUMMARY:**

Review of the harvest practices of a conventional radish growing operation with five workers mechanically harvesting radishes. The harvest machine uses multiple sets of parallel belts grip the tops and carry the radishes up the harvester, trims the tops, and conveys the radishes to a wagon pulled behind the harvester. The wagons are taken to the central farm base for rinsing with single pass fresh well water (no antimicrobial used) and loaded onto specialized (Nhytemp™) trailers for transport to a cooling and packing facility. Harvest occurs primarily from June to October.

**Addendum(s) included in the audit:**

Not Applicable

**Product information for each product**

Product Group/Product Name	Observed Product	Seasonality	Country of destination for product
Radish	Observed on the day of audit	From: June To: October	Canada, United States
